

**Starting a new
conversation.**

From consumers to press, we are starting a new conversation, focusing on cannabis as a critical wellness tool. And, we're making progress. Two months after we launched, *Time* magazine named **dosist**[™] as one of the best inventions of 2016. Since then, we've been globally recognized for disrupting the wellness category and paving a new path forward for cannabis – most recently **dosist**[™] was named by Fast Company as one of 2018's ten most innovative health companies.
